

THERMAL FUTURES INITIATIVE

STUDENT SPONSORSHIP

Corporate Sponsorship

STEF is inviting Corporations to provide a sponsorship to allow students to attend and present at the SEMI-THERM symposium covering conference registration, airfare, and lodging.

\$2,500

Student Benefits

- Students present their research at the SEMI-THERM Conference
- Research is published in IEEE Xplore Library and SEMI-THERM Technical Library
- Attend Technical Sessions & Networking Events.

Corporate Sponsorship Benefits

- ★ Recognition as a Corporate Sponsor in prominent areas
- 📖 Access to the SEMI-THERM Technical Library
- 👥 Demonstrated commitment to education and innovation

Who We Are?

The SEMI-THERM Educational Foundation (STEF), founded in 2013, is a non-profit dedicated to advancing education and resources in the electronics thermal engineering community. STEF provides programs for professional development, technical networking, and collaboration between academia and industry in pursuit of innovation and excellence.

What We Do?

STEF operates the SEMI-THERM Symposium, Exhibition, and various technical workshops, all supported by dedicated volunteers. In line with its mission, STEF continues to create opportunities for connecting academic and industry leaders in electronic thermal management.
